

"Don't Worry."

dear," is her wise advice. We echo her words. If your income is limited, don't worry how to make the pennies, dimes and dollars go farthest. We'll increase your income by offering you the means to save money. Next to rent, butcher, baker and grocer's bills, clothing forms the most important expense item, especially if you have several boys to clothe. The time is here when you and they will want new suits; see what we will do for you. Our new stock is here; it will interest you. Such handsome styles, such extra good qualities and such low prices as you will find at our store this season will convince you that we mean to do the suit business in Lima.

SPAIN MUST ANSWER

Secretary Gresham Has Cabled Formal Demands.

DUX EXPRESSIONS OF REGRET

And a Prompt Denial for Firing on the Alliance Ship at Cape Morel.

WASHINGTON, March 16.—The Italian government is acting with extreme moderation and consideration in the matter of the killing of five of the crew of the Italian ship, the *Albatross*, by the Spanish gunboat at Cape Morel.

The only communication received from the Italian government, save the verbal request for a proper investigation, is a cable from the Italian ambassador, enclosing to Secretary Gresham a copy of the report of the Italian consul at Denver, stating the facts attending the killing and the names of the victims, all five being, according to the consul, Italian subjects, and not American citizens.

In transmitting this report the ambassador expresses the hope that the Colorado authorities will take the necessary steps to secure the prompt punishment of the guilty parties.

This note and report will be communicated to the governor of Colorado by the secretary of state, and that is as far as he can go in the matter of the case.

It is probable that the president will feel constrained to request that the families and relatives of the murdered men be indemnified.

In the case of the killing of the Italian in New Orleans four years ago, the state department took the ground that an indemnity could not be paid in gold, and that it was bound to yield in equity and equity on these grounds recognize the principle of an indemnity.

The unfortunate incident at Washington may seriously embarrass the state department in its efforts to protect American citizens in foreign countries.

Justices Rest.

The supreme court of the United States today took a recess until Monday, the 25th inst., with the exception that it will sit next Monday for the delivery of opinions and to hear motions.

Before adjournment the court postponed the hearing in the *White Cap* cases of J. W. Todd, Allen Light, George Simms and 10 others, convicted in the northern district of Alabama of luring witnesses, etc., and sentenced to imprisonment.

DETAIL OF POLICE

Guard a Priest in Celebrating Mass in a Polish Church.

CHICAGO, March 16.—About 200 angry poles, men and women, stormed St. Hedwig's church, at North Hoyne avenue and Kosciuszko street, at 4 o'clock yesterday.

Five policemen who were in the church were covered by the mob, but on the arrival of reinforcements the rioters were driven off.

There has been trouble in St. Hedwig's church for several days. Father Baranski belonged to the order of Resurrectionist Fathers, and it was this that the objection was made for some reason.

The police arrested Louis Lowandowski and several others, who seemed to be ringleaders, and search is being made for the woman's husband.

After the church was cleared the priest celebrated mass under guard of a detail of police.

HORRIBLE DISCOVERY.

Bodies of Three Wolf-Hunters Found, Probably Murdered.

CHIPPWA FALLS, Wis., March 16.—A horrible discovery was made yesterday by a party of men hunting in the neighborhood of Ingram. The dead bodies of Ed Duffney, John Hanson and another man were found in an old lumber shanty. From all appearances they had been dead a number of days, the bodies being frozen stiff. Duffney and Hanson were formerly employed as woodsmen, but quit work to hunt wolves, using poison to kill them. The supposition is that in preparing supper they accidentally put the poison in the food. Their dog was found dead in the same room.

Governor of New South Wales Dead.

SYDNEY, March 16.—The Right Hon. Sir Robert William Duff, G. C. M., governor of New South Wales, is dead. Sir Robert William Duff was born in 1838. He was formerly a commander in the royal navy, a justice of the peace and a deputy lieutenant for the counties of Banff and Kincairdine, Scotland. From 1881 to 1888 he was a member of parliament for Chertsey Bay. He was a lord of the treasury from 1883 to 1888, and was a lord of the admiralty in 1888. He was appointed governor of New South Wales in 1893.

Obnoxious to Interstate Law.

CHARLESTON, March 16.—Judge Brantley in the United States district court, handed down a decision in the case of the schooner *Caroline*, seized and confiscated by the state for violating the dispensary law. The court says so much of the dispensary act as is inconsistent with interstate commerce is void, and the schooner *Caroline*, while engaged in such commerce, should not be legally seized.

Church Incendiary Confesses.

BOSTON, March 16.—James A. Doherty, 17 years old, has confessed to five incendiary explosions at St. Peter's Catholic church the evening of March 8. The marshal said he had not finished his investigation and would not make known the details of the investigation until he had.

No Water Protection.

DEVINE, Tex., March 16.—An early morning house destroyed by fire today. The house was a two-story building and the flames swept every house on the west side of the International and Pacific railway track. Loss estimated at \$50,000.

Returning to Work.

NEW YORK, March 16.—Two men who were arrested last week for striking a building were released today. They resumed work on John Jacob Astor's mansion at Sixty-fifth street and Fifth avenue. The American Trust society's new building at Spruce and Nassau streets, and on the Wolfe building at William street and Maiden lane. These men are in the employ of Builder John Downey.

Windows in Buildings Were Broken by the Shock.

MIGHT HAVE BEEN FAR WORSE

Three Thousand Pounds of Nitroglycerin Exploded and One Man Was Killed. Nearly a Magazine Containing 85,000 Pounds of Dynamite Was Wrecked—Not an Once Exploded—Lost, Small.

Houston, Mich., March 16.—About 3,000 pounds of nitroglycerin exploded at the Hancock chemical works near Detroit yesterday. All the buildings of the company were wrecked. It being dinner hour only one man, Dominick Christian, was killed. Several were injured by flying debris, but no serious injury. The cause of the explosion is a mystery. Christian's duty was to attend the mixing of acid and glycerine. He was in the nitroglycerin vault when the explosion occurred. Not even a particle of his remains could be found.

Carl Ulrich, who was in the mixing house only a few feet away, miraculously escaped by being wedged between the acid tubes, which were covered by an iron frame. In the packinghouse nearby, were large quantities of dynamite, and in a magazine adjacent was stored 85,000 pounds of dynamite, but not a pound of it exploded, although the buildings were wrecked.

The property loss is about \$5,000. This is the third explosion at these works with a total loss of 10 lives. Windows were broken in buildings at Lake Linden, six miles away, and in Calumet, 10 miles to the north, glassware rattled in the houses. The explosion was distinctly heard. At Houghton, three miles distant, it was scarcely heard.

PREHISTORIC REMAINS.

In a Kentucky Cavern Four Petrified Human Bones Found.

CINCINNATI, March 16.—In a small rocky cavern on lands owned by Dr. Terrell, 10 miles from Cleveland, O., in Boone county, Ky., sitting upright in a close little group, have been discovered four petrified human beings of some prehistoric race.

The bodies are small in stature, dark, and in features and general contour much like the mummies taken from the crypts of the pyramids of Egypt. They were partly wrapped in bandages of a material resembling cloth. The folds were even, but perfectly distinct, and when crumpled to dust at a touch disclosed smooth, fleshy marble. One of the feet, four inches long, was that of a man, and the other three were of a woman. The bodies are a beautiful brown and white agate.

For years it has been known that an antebellian burrowing ground existed on the Terrell farm, and from time to time bodies similar to these have been exhibited. Many of the farmers' wives in this vicinity, ignorant of the true value of the discovery, have used the bodies as ornaments for flower beds and garden paths.

Doctors and curiosity hunters from Lawrenceburg, Aurora, Cincinnati and other places have been visiting the Terrell farm, and searching its walls for more of these strange relics. The finding of so many of them seems to sustain the theory that this section of the country was at one time a peculiar race of people, now extinct, long before the appearance of the red men, who were in possession when the country was traversed by Europeans.

TRUE LOVE REWARDED.

The Bride of a Convict Finally Secures His Pardon.

CHICAGO, March 16.—After the jail wedding of Miss Lulu Keiver and William F. Bagley Jan. 25, the bride promised to wait until her husband would do all in his power to secure his release before the expiration of his term. Governor Altgeld has now pardoned Bagley and as soon as the formalities can be carried out he will be free to thank his wife for her fidelity to him.

Bagley was a Hyde Park jowler who ran away with watches left to be repaired. He spent a few days in Cincinnati, was arrested there, brought back, indicted, tried and sentenced. At the time of his lapse from the right he was paying court to Miss Keiver. After his fall she refused to renounce him, and they were married in the jail. Since that time the young bride has been working to secure her husband's pardon, and Friday her efforts were rewarded.

Claimed to Be Cook Gang.

It is the Cook Gang.

A daring hold-up and robbery came from Washington. Near dusk the section house and men were sitting at two biggyvorn. Section Foreman Woods was hit, the bullet entering the right cheek and coming out at the right ear. It is not thought that the wound is dangerous. Mrs. Woods was also beaten with a 6-shooter, receiving wounds which are most likely to prove fatal. The booty obtained consisted of \$122.85 in money and railroad checks and three gold watches. The robbers told their frightened victims that they were the remnants of the Cook gang. A posse is after them.

Shocking Double Tragedy.

PORT BYRON, N. Y., March 16.—Mrs. Perry Randall and daughter Mabel, were struck by a West Shore train at Weedsport yesterday and killed. The woman lived an hour with both legs and arms and collarbone broken, while the girl was ground to pieces under the engine.

May Abolish Hanging.

LINCOLN, Neb., March 16.—The amended bill to abolish capital punishment has passed the senate. A canvass of the lower house shows that of the 100 members 87 favor it, 20 oppose it and the remainder are non-committal. Governor Holcomb is said to favor it.

Charges Made in Court.

OMAHA, March 16.—All the inhabitants of the Omaha suburb of Sheldahl were in the police court yesterday interested in the trial of the church rioters. After some preliminary work court adjourned.

Killed For Kidnaping.

CONSTATTOPOLE, March 16.—Advices received here from Moscow show that two Karis, who were being pursued for having abducted an Armenian girl, were overtaken by their pursuers and killed.

THE LAST LECTURE

Of Mrs. F. M. Baxter's Series, Delivered Last Night at the Residence of Mr. J. F. Brotherton.

Mrs. Frances M. Baxter last night closed her course of six lectures which for the last three months she has been delivering weekly to her large class of students. The lecture last night was delivered at the pleasant home of Mr. and Mrs. John F. Brotherton, on east Market street.

The house was filled with the friends of Mrs. Baxter, many guests, aside from the members of the class, being present upon invitation. Mrs. Baxter's subject for last evening's lecture was "American Art and Artists," and it was handled in such a masterly style as to elicit the admiration of the entire audience, who during the hour that Mrs. Baxter talked were as thoroughly wrapped in the subject as was the speaker herself. Mrs. Baxter showed the most perfect familiarity with the subject, and discussed the American artists, and their many grand productions on canvas, in the most skillful manner.

In connection with Mrs. Baxter's art talk the guests were entertained by a charming musical programme, rendered by Miss Akerman, pianist, and Mr. Rial Roberts, of Boston, violinist.

NEW ENGINE.

The Pennsylvania company is building at its Altoona shops a new consolidation compound six-wheel passenger locomotive, and also working on drawings for a new very fast passenger locomotive, which will be different in type from anything now in use on the Pennsylvania lines.

The new passenger engines will not be ready for service for some months, and will first be tried between Philadelphia and Jersey City. All these engines will be decided improvements over any locomotives now in use on the Pennsylvania.

The P. E. W. & C. pay car was here yesterday afternoon.

WITH LONGFELLOW

St. Rose's Reading Circle Presents a Delightful Evening.

St. Rose's Reading Circle spent a delightful evening last Tuesday in their beautiful room on North West street, with Longfellow. The call was answered with quotations from his poems. After the reading of the minutes, the circle rendered a chorus entitled, "The Bridge." Miss Emma Riley read a biographical sketch of Henry W. Longfellow, and Anna Donahue recited "The Village Blacksmith." She bids fair to become an elocutionist. Mamie O'Brien showed ability in reading a carefully prepared paper on "Evangelical Hannah Luller sang a solo in which she displayed an excellent alto voice. Minnie Kinnane read a carefully prepared and interesting paper on "Miss Standish" and Alice Caffery rendered a recitation, "Three Wise Kings." Mamie Kane sang a soprano solo, "Rahy Day," and Miss Lenoard read a character sketch of Henry W. Longfellow. A tenor solo was sung by Father Manning and Rev. Father Brady presided at the piano. A duet by Hannah and Katie Lawlor and some remarks by Father Brady were followed by an informal reception. Later the meeting adjourned and the guests departed well pleased with the evening's program.

SAVED BY HIS SLAVE.

A DESPERATE FIGHT IN WHICH CENTAUR WON HIS FREEDOM.

How Captain Calhoun of the Mississippi River Pirates Ended His Career—A Chapter From the History of Boating in the Long-Ago.

"Life on the river now is not what it was 30 years ago," said Captain Huff, an old time river rover yesterday. "In those days we had great obstacles to navigation to overcome, headwinds frequently encountered some of the most desperate outlaws known to criminal history, who made the river a resort and lived by robbery and murder. They had no regard for life if it interfered in their obtaining the property they coveted."

"The leader of one of these gangs was known as Captain Calhoun, who had his haunts along the shores of the Mississippi, where, in secluded places, he and his men would secrete themselves and await an opportunity to attack and plunder trading boats or produce barges ascending or descending the river."

In 1824, Mr. Beaulieu, a wealthy trader of New Orleans, loaded a small boat with valuable goods and started for St. Louis. Three slaves and himself constituted the entire crew of this trading palanquin. One of the negroes was an ebony hued Hercules of superior intelligence and considerable cunning, called by his master Centaur because of his prodigious strength and giant proportions. As the boat was passing a desolate point on the shore the robbers pushed out from the shaded banks in their swift canoes, and surrounding the boat with a flourish of firearms forced the Frenchman to surrender without a struggle. Binding the limbs of the owner, they locked him in the cabin and proceeded to search themselves of the rich booty the boat contained. Centaur expressed the greatest delight at the success of the robbers and declared he was glad they had made his master a prisoner, for now he would be freed from him and would love to serve and wait upon the daring freebooters. He would dance and sing with the greatest apparent glee, and his mistress pleased his captives who ordered him to prepare an elegant supper from the bountiful supplies on the boat.

"The negro was an elegant cook, and persuading them to release one of the other slaves to assist him in preparing the meal he spread a table of delicious viands and tempting liquors that surprised and delighted the robbers. He had enjoyed for many days the ready acquiescence to all demands and his intelligence in anticipating their every want won their confidence, and the chief declared he would prove a very desirable addition to their numbers. While the robbers were enjoying themselves at the table the negro conceived a plan to recapture the boat and release his master. Commencing his intentions to the slave who had been detailed to assist him, he directed the fellow what part he desired him to perform when the time for action should arrive. After feasting and drinking to their fullest satisfaction the half drunken robbers assembled on the deck to discuss what was the best course to pursue in their present predicament. Centaur, being allowed perfect freedom, managed to consult with his master and impart to him his plans. The helpless trader, fearing that the robbers contemplated taking his life, urged his faithful slave to make a desperate effort to accomplish his purpose and to reward him a rich reward if he succeeded in effecting his release. The robbers were eight in number and roamed in drunken hilarity about the boat. The river was rough, and the darkness that ensued made it difficult for the negroes who were navigating the heavily laden boat to reach the point the pirates were anxious to land at. Five to the gun had collected about the bow of the boat and were discussing the slow progress they were making toward their destination, when Centaur gave the signal agreed upon to his comrades, and immediately springing into the middle of the assembled robbers seized the leader in his arms and lifting him above his head hurled the surprised fellow overboard, far out into the swift, dark river. With wonderful strength and surprising speed he caught up three more of the robbers and had tossed them overboard into the splashing water before their startled companions had realized what had happened. The other two negroes, upon receiving the preconcerted signal, had slipped down two of the robbers with a heavy car before they could offer resistance, and Centaur, grabbing up a pistol that had fallen on the deck from the hand of one of his victims, rushed at the two remaining robbers on board, and, shooting one, the other leaped into the river to escape the fury of this colored Goliath.

"Feeling the bodies of the three wounded robbers overboard, the heroic negro beat back into the river with an air several others who were clinging to portions of the boat and attempting to climb back on board. Almost helpless from liquor, the half drunken wretches were unable to swim in the chilling waters, and every one of them was miserably crushed. Mr. Beaulieu, released by his victorious slaves and freed from his captives, returned to his boat, and proceeded on his way rejoicing; but, after selling out his cargo and disposing of his boat, he abandoned river trading and settled down on a plantation in Louisiana. He gave Centaur his freedom for the valuable services rendered in rescuing him from the robbers, but the brave negro would not leave his master and remained with him as overseer of his plantation."—Cincinnati Enquirer.

A Remembrance.

Mrs. Belkoff—My husband is nearly 45, and he hasn't a gray hair in his head.

Mrs. Bloomfield—Neither has mine, and he is over 50.

"Isn't that very remarkable?"

"Not particularly so. He is entirely bald."—Pittsburg Chronicle-Telegraph.

Business Block Burned.

SANTA FE, N. M., March 15.—A block on San Francisco street in which were Franz's hardware store, Gabler's undertaking establishment, Bolander's saddlery shop and Call's jewelry store, burned early yesterday. Loss about \$50,000; insurance \$40,000. A detachment of boys from the government Indian school distinguished themselves by doing good service as firemen.

HIGHER TAXES.

The Republican Managers Seeking to Put \$20,000 a Year More on Us.

A Scheme to Elect a Police Judge, a Police Clerk and a Lot of Other Executive Attachments.

The Republican managers have been quietly working on a scheme to put in nomination candidates for Police Judge and Police Prosecutor for Lima. They have been keeping the matter under cover, expecting to file their papers late to-night without giving the Democrats any intimation of the course until it would be too late for the latter party to file nomination papers. The Republican managers hoped thus to place such a ticket in the field without opposition and create a couple of officers who would have patronage to bestow. Should they place such a ticket in nomination they will find a strong Democratic ticket in the field for the same offices, ready to give them battle.

Should the Republicans succeed in forcing a police judge and police prosecutor upon the people of Lima it will cost the taxpayers of Lima \$6,000 or \$8,000 a year for salaries, etc. It will be an inquiry of the gravest character against which we, in the name of good government and of the taxpayers, most earnestly protest. We are now carrying a burden of taxation thrown upon us by Republican legislation and this new conception would make it greater.

STREET TALK.

Mary had a set of teeth quite sound and pearly white. And no one ever dreamed that she could take them out at night. She left them home from school one day. Which was against her own, they say. For chewing "brim" in school.

At the opera house Monday night those not fortunate enough to have seats commanding a full view of the stage were treated to a pleasant surprise. Many of the ladies present took off their hats after becoming seated, much to the relief of those sitting behind them. There was a number of ladies who wore their hats throughout the performance, but enough were doffed to make it noticeable and to cause favorable comment. The custom should become general.

A well-known shopkeeper, who keeps a stock of the cheaper valentines on hand the year around, says he has plenty of sale for them. Besides making a good profit, he feels that he is saving the police plenty of trouble. "The demand out of season," he says, "for these class of valentines is from those who have quarreled with their neighbors. They know I have the valentines, and instead of using clubs or knives on one another, they come here and get something that answers the purpose just as well."

Chief Clerk Jerry Orthwein, of C. H. & D. Superintendent Husted's office, resigned last evening and this morning took a position with the Buckeye Pipe Line company. Bert Zartman succeeds Jerry as chief clerk. Last evening, after Mr. Orthwein had severed his connection with the company, the boys in the office presented him with a handsome K. P. watch charm as a token of their friendship and good wishes.

The Buckeye Pipe Line offices are to be enlarged. The telegraph office to be removed to the third floor of the Faunt block and several additional wires put in. The entire office force is to be increased. The changes will be made early in the spring.

A phase of smokeless powder, which sportsmen generally recognize, is the intense irritation of the eyeballs caused by the gases set free in the burning of the powder. This irritation is common to all nitro-

powders, but because its effects can only be felt when the wind is blowing in the face of the marksmen some time elapsed before the effect was laid to the proper cause. A sportsman of considerable local fame declares he has lost more than one match by his habit of standing behind the other shooters until his turn came, for then his eyes were so inflamed that he could scarcely see the pigeons at all.

DEMOCRATIC CITY COMMITTEE Will Meet This Evening at Squire Douglas' Office.

There will be an important meeting of the Democratic city committee this evening at 7:30 o'clock, at Squire Douglas' office. Let every member be present as important question will be before the meeting.

H. HANNAHAN, Chairman.
R. A. HICKY, Secretary.

ONLY ONE NAME Shall Be Placed On the Ticket for Member of School Board.

Such Will Be the Position Taken by the Board of Supervisors as Outlined in the Meeting To-day.

The Board of Deputy Supervisors of Elections at their meeting to-day, took up the question of the return for nomination for Member of the Board of Education, and will maintain the position outlined by them at the meeting on Thursday, when they made the ruling that under the law the candidates of one party could not be placed on the ticket of another party unless regularly nominated at the time other nominations were made. Mr. George Feltz, chief deputy, stated that he had written to the Secretary of State upon the subject, fully explaining the situation here and in reply received from Mr. Taylor the following telegram:

COLUMBUS, O., March 18, '05.
Geo. Feltz, Chief Deputy, Lima, O.
But one name should appear on each ticket of the parties mentioned, unless vacancies are filled by proper committees. Form of ticket first mentioned is correct.

T. M. TAYLOR, Secretary of State. The form of ticket referred to is one arranged in conformity with section 6a of the amended election laws passed last April under which the Board are acting. As against the opinion advanced by City Solicitor Adgate last night that the parties had by agreement inferentially nominated each other's candidates for member of the Board it is held that the party holding the second primary could do so for they would know whom the first party had nominated at their primary, but the party holding the first primary could not, even by inference, endorse or nominate the candidate of the second, because of the uncertainty as to which one of three candidates would be that party's choice.

A FINE LECTURE.

The Closing Y. M. C. A. Attraction Last Night.

West Market Street Presbyterian church was well filled with a highly appreciative audience last night to hear Dr. Hensen's lecture on Fools. Dr. Hensen is one of the wittiest men on the platform and his lecture last night was replete with sarcasm, humor and wit, and the audience smiled and laughed. The lecture was very interesting and instructive and all were well pleased. It formed a suitable closing for a very excellent course given by the Y. M. C. A. this season.

Phonographic Concert.

Inasmuch as many were unable to avail themselves of the opportunity to attend the Phonographic Concert given at the Presbyterian church on the evening of March 6th, the officers of the First Baptist church will offer to the public an opportunity to attend an entertainment of a similar character, conducted by Prof. Lyman H. Howe, with his improved Edison phonograph, on Wednesday evening, March 27th, at which time different selections rendered by eminent musical artists will be faithfully reproduced. The corps of ushers will endeavor to make this concert one worthy of the patronage of their numerous friends.

LIBERAL DONATIONS

From the Residents of Lima for the People.

In the Ohio Mining Districts and Various Other Places—Several Car Loads Contributed.

The citizens of Lima have responded nobly to the cry of distress from the Ohio mining districts and the residents of Nebraska.

Members of the ward committees appointed last Monday, to select the church in the city council chamber at 7:30 o'clock last night, and their report was very favorable. Messrs. H. E. Hackett and E. W. Jackson were appointed a committee to make arrangements for the transportation of the contributions, and Gus Kalb was chosen treasurer to receive the cash donations until the committee decide what disposition shall be made of the money. If free transportation can be secured the money will be converted into provisions, but if freight has to be paid the cash will be used for that purpose and what remains forwarded.

Nearly \$500 in cash has already been contributed, and there will be no doubt a car load of contributions for the Nebraska as well as the Ohio sufferers.

The donations consist of canned goods, beans, potatoes, flour, clothing and dozens of other articles, which will be very acceptable. Messrs. C. A. McNeany, Thos. Duffield and H. A. Moore were stationed at the assembly room in the court house to-day receiving the donations as they came in. They also served as the committee to divide the provisions equally between the Ohio and Nebraska committees.

Messrs. R. White, H. A. Moore, Captain Christen and J. H. Churchill were appointed a committee to visit the country people to-day and get them enthused.

The committee will meet again at 7:30 o'clock Monday evening to complete the arrangements for

DELIVERING THE DONATIONS

which have been made by Lima people. The committees in the townships outside the city have been notified to deliver the country donations on or before Tuesday and Wednesday, March 26th and 27th. Up to 2 o'clock this afternoon fully a car load of provisions had been delivered to the committee at the assembly room and several wards had not yet sent in their donations. This afternoon one wagon load of provisions arrived from the Fourth ward and the driver stated that the load was contributed by residents of Tanner street, south of the bridge.

St. Rose's Relief Society gave ten barrels of flour and St. Rose's school sent three wagon loads of clothing and provisions for the Hocking Valley sufferers.

The Seventh ward committee reported having collected \$109.10 in cash and several wagon loads of donations. The other wards had not fully reported but will average about the same.

At the rate the contributions were

being delivered this afternoon the entire receipts will far exceed expectations.

The collections consist of only articles that will be useful and consist of flour, beans, potatoes, canned goods, clothing and shoes. There will be at least half a car load of flour and the clothing will fill a good-sized car. Health Officer Stenber will fumigate the latter before it is shipped, not because he considers it necessary, but to allay any fears that might be entertained by recipients of the goods, the result of the exaggerated reports sent out regarding small pox here.

Wedded Last Evening.

At the residence of the groom's father at 817 East High street at 7 o'clock last evening, Mr. Charles R. Hams and Miss Mary E. Watkins, daughter of Mr. and Mrs. Thos. D. Watkins, of Miller avenue, were united in marriage by Rev. Imler, of U. B. church.

JUST FOOLED HIM.

The Town Marshal Was all that Was Necessary

To Land a Lima Attorney in Jail for Contempt—His Client Comes to His Rescue.

Considerable excitement was created in Squire Johnson's court at Harrod, twelve miles east of this city, yesterday afternoon by the arrest of Attorney Badger of this city.

Badger was counsel for the defense in a suit of Geo. Hall, of this city, against H. Creps, of Westminister, and was cross-examining one of the plaintiff's witnesses. The witness claims that Badger asked him the same question four times in succession. He answered three times and the fourth time made no reply to Badger, who drew into a rage. Squire Johnson ruled the question was impertinent and that twice was often enough to ask any question, when a direct answer was giving by the witness. Badger told the court that he was a country justice and didn't know his business, and continued to argue his point on the question regardless of the court having ruled, whereupon Squire Johnson informed him that if he did not cease he would have him locked up for contempt and Attorney Badger intimated that there wasn't men enough in Harrod to arrest him and the Squire requested the town marshal who was present to place Mr. Badger under arrest. That official seemed pleased at having such a duty to perform and throwing aside his coat he waded into the Lima attorney, who was locked behind the bars of the village calaboose within a brief space of time. He remained in the prison for about an hour during which time the hearing of the case was suspended.

Mr. Badger's client finally came to his rescue with \$10, which secured his liberty and the case of Hall vs. Creps was resumed.

WILL CERTIFY BOTH

Names To the Board of Deputy State Supervisors in the School Board Matter.

Such Was the Decision Made by the Democratic and Republican Committees Last Night.

The Democratic and Republican City Committees held a session last night to determine upon a course of action regarding the certifying of the names of candidates for members of the Board of Education. The ruling of the Board of Deputy State Supervisors of Election was taken up and discussed by the city solicitor who held that the condition contemplated by the section upon which the Board had based its ruling did not exist in the case under discussion; that there was in reality no vacancy on either ticket, but that the Democratic and Republican party had each inferentially nominated the candidate of the other party at the time the balance of their ticket was nominated. Being no vacancy, he held that the committee would not be prevented from duly certifying the nominees of the other party. Should the Board insist on counting the section of the law as applicable to this case an opinion will be obtained from the Secretary of State, who is chief Supervisor of Elections.

THE NEW CONVERTS.

Epworth League of Grace Church Will Entertain Them Wednesday.

The Epworth League, of Grace M. E. church, will give a reception to the recent converts of the church, in the church parlors on next Wednesday evening.

Ice cream and cake will be served and an informal programme will be given. The object is to get the members of the league acquainted with the new converts.

The Modern Way commends itself to the well-formed, to do pleasantly and effectively what was formerly done in the crudest manner and disagreeably as well. To cleanse the system and break up colds, headaches and fevers without unpleasant after effects, use the delightful liquid laxative remedy, Syrup of Figs.
